Web Developer

PROFILE

Name: Sahil Bhatta

I'm a frontend web developer with the knowledge of some frontend tools like HTML, CSS, and JavaScript. I make websites that are responsive which work well on all devices. I also use Tailwind CSS to create modern and good-looking websites.

EDUCATION

- SLC (Government of Nepal) graduated from V.S. Niketan Higher Secondary School – Minbhawan, Kathmandu
- +2 Science (National Examinations Board) graduated from United Academy – Kumaripati, Lalitpur
- Bachelor's degree in Computer Science & Information Technology from Himalaya College of Engineering, T.U (IOST)

SKILLS

- Frontend Web Technologies: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design

PROJECTS

- Frontend Development of Apple School Website – is a modern and user-friendly website designed to meet the needs of students, parents and faculty members.

- College Recommendation System using KNN algorithm – With KNN algorithm, the project is able to analyze vast amount of data to suggest colleges that best match a student's preferences and academic achievements.

- Book Store Website – is a beautifully designed e-commerce website that provides a seamless shopping experience for book lovers.
